

Your Safety Compliance Accelerator

For over a year, employers have been hyper-focused on COVID-19 compliance and mitigation practices. As employees return to work, OSHA's authority expands, and Workers' Compensation insurance rates increase, it is imperative that employers take action to enhance their compliance programs and take a proactive approach towards safety.

ESM has developed a Compliance Program to:

1. Provide risk management compliance experts.
2. Accelerate an employer's compliance needs.
3. Outline a go-forward training program.
4. Provide ongoing monthly updates and resources.
5. Provide your insurance broker with a stewardship report to negotiate Workers' Compensation premium credits.
6. Educate employers via monthly webinars, regulatory updates, new learning plans, content and much more.

Now is the time to invest in safety and revamp your compliance program. Click below to start today.
